

UPDATED PAGES

Course Page

The screenshot displays a web browser window with the URL <http://localhost/credit/courses.php>. The page is the 'STUDENT DASHBOARD' for Veermata Jijabai Technological Institute. The header includes the institute's logo, name in Marathi and English, and a building image. A navigation bar contains links: Home, Events, Courses (active), Emails, Documents, Blog, and Forum. The 'Courses' section is highlighted with a red header and contains links for Project Management, Advanced java, and Activate Course. On the left, there are 'Useful Links' (VJTI, NPTEL, Academic Projects, Virtual Library, EdX) and a 'Profile' section (Profile, My Events, My articles, My posts). The footer includes 'About This Website' and a copyright notice for 2012 VJTI. The Windows taskbar at the bottom shows the time as 11:39 PM on 2/28/2013.

The screenshot shows a web browser window with the address bar displaying `http://localhost/credit/view_assignment.php?cou=...`. The page is titled "View Assignment" and is part of the Veermata Jijabai Technological Institute (VJTI) Student Dashboard. The dashboard features a header with the VJTI logo and name in Marathi and English, and a navigation bar with links: Home, Events, Courses, Emails, Documents, Blog, and Forum. A sidebar on the left contains "Useful Links" (VJTI, NPTEL, Academic Projects, Virtual Library, EdX) and a "Profile" section (Profile, My Events, My articles, My posts). The main content area, titled "View Assignment", displays assignment details: Name: Topic 1, Posted: 28/02/13 17:52:48, Deadline: to be decided, Submit: Offline, and Submit Url: #010902/. It also includes an "Upload Marks" section with a CSV format instruction and a "Browse..." button, a "Submit" button, and a "Delete Assignment" button. The footer contains a copyright notice: "Copyright © 2012 VJTI. All Rights Reserved." The browser's taskbar at the bottom shows the Windows Start button, several application icons, and the system clock indicating 11:40 PM on 2/28/2013.

ADMIN

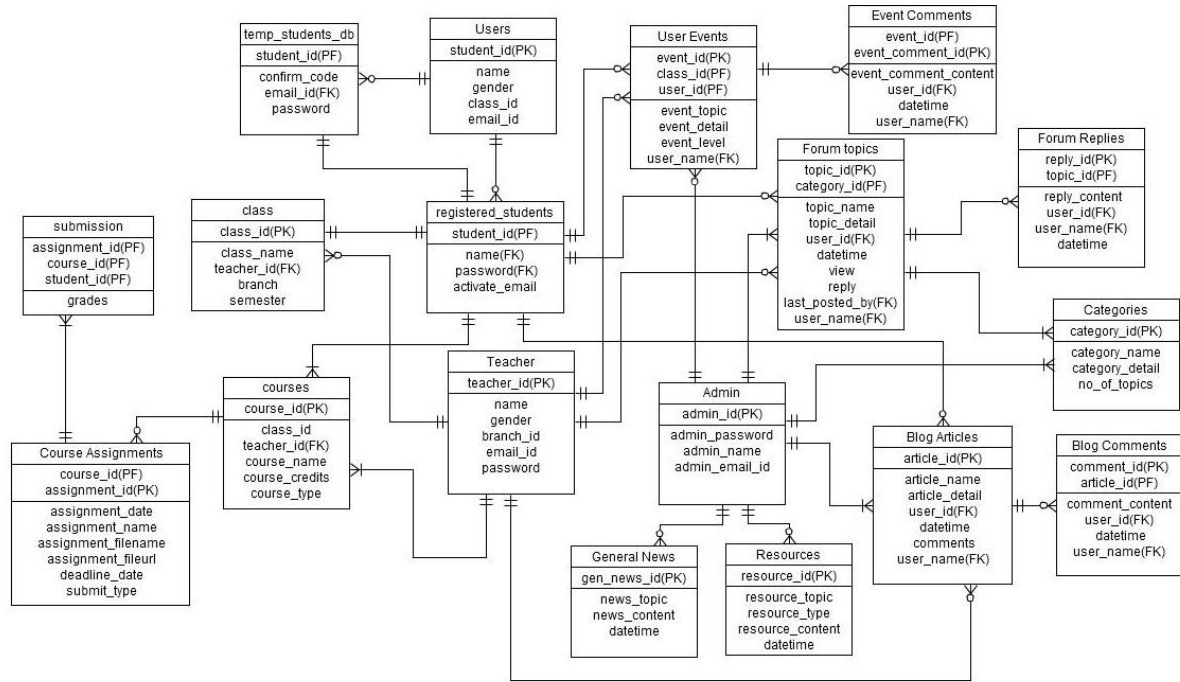

Admin Users Page

2. RELATION BETWEEN WEB PAGES

3. DATABASE SCHEMA

4. FUNCTIONALITIES COVERED

Basic Features:

- Signup facility for students where their account is activated on the dashboard. Teachers are already provided with a unique id and password by the college so they can directly access their account.
- User authentication has been performed at the time of signup and also at the time of login. Student details are already stored in the database by the admin which could be used to authenticate the student and prevent anybody else to access other's accounts.
- Student Dashboard
This view will have details that students would use the most when they enter your website. In the home page latest news and announcements of class events or college events are shown.
- Add activities/events and comment on them. Each student has access to his classroom events and can create and comment on them. Every teacher has access to his branch events and can create and comment on them.
- Personal document Manager that allows user to add/delete document
- Email client : Php WebMail Service
- Blogging
- Discussion Forum
- Students can access their courses through their account. They can download the course assignment and even submit completed assignment. They can receive their grades from the teacher after the submission.
- Teachers have the facility to activate their course on the dashboard by which they can add assignments to be submitted online or offline. They have the flexibility to provide their own submission url. They can give grades on the dashboard itself by which it can reach to the relevant student only.
- Teachers have the power of deleting the course that they had activated on the dashboard. The class teacher has the power to delete any event belonging to his class.
- Admin can add/edit/remove any user on the website. He can edit contents on the blog and forums. Also he can add the news and resources would be available at the home page. He can view all the documents of the teachers and the students.
- Admin can change user's password and provide a new one.

Additional Features :

- **Email support on events and assignments added for a particular class.Each class student gets a notification whenever any new class event or course assignment is created.He also has the option to unsubscribe to the emails.**
- **Forgot Password : Each student can retrieve his/her password by entering his id no and email id. He will be sent password in the mail.**
- **In line editor facility for easy editing of contents posted by the author.**
